Mobile: +201093011701

E-mail: vskhaled55@gmail.com

Education:

Bachelor of Computer Science, SVU University.

Grade: Good.

(2021 – 2025)

Experience:

- Graduation Project.

Dec 2024 – May 2025

Automated Attendance and Absence Tracking System using RFID and ESP.

- My Case – Comprehensive Cases System.

Sep 2023 – June 2024

Developed “MyCase”, a comprehensive ASP.NET Core case management platform featuring case tracking, user and role management, appointment scheduling, document attachments, search and filter tools, and a dashboard for legal statistics.

- Transport Company Management System.

Feb 2024 – June 2024

Developed the backend of a **Transport Company Management System** using **ASP.NET Core 6** and **SQL**, featuring transport mode selection, shipment scheduling, delivery estimation, fleet and driver management, and optimized route planning.

- Tyarko

Aug 2024 – Oct 2024

Tyrco is a smart delivery platform that connects customers with drivers. Users can specify the product, location, and preferred price, then receive offers from nearby drivers to choose the best one. The project aims to provide fast, reliable, and affordable delivery services and is currently operating in Aswan.
